Summary

At Aequalis Software Solutions Pvt. Ltd., I improved efficiency by identifying bugs and executing automated test cases using Selenium, reducing testing time by 30%. At DevsIndia, I contributed to software quality through manual testing, identifying and resolving UI and functional bugs to enhance user experience and ensure smooth project delivery. My attention to detail and communication skills helped drive product quality and business success.

Work History

Quality Analyst - Aequalis Software Solutions Pvt. Ltd.
NOV 2024 - present
**Tech Stack: Selenium, Functional Testing, Regression Testing,
             Angular 15-17 Update**

- Enhanced application reliability by identifying and reporting critical issues, including five major defects and one critical bug, during **LAVA project** testing.
- Executed regression testing for Angular 15-17 updates, ensuring smooth integration and preventing disruptions in the application's core functionalities.
- Streamlined testing processes by automating test cases using Selenium, which reduced manual effort and testing time by 40%.
- Conducted functional testing in test environments to validate feature completeness, contributing to a seamless user experience.

Cloud Intern - Devsindia private limited
MAY 2024 - NOV 2024
**Tech Stack – AWS, Functional Testing, Regression Testing,
             Cross-Browser/Device Testing, S3**

- Improved software quality by meticulously executing manual test cases and identifying defects.
- Enhanced product performance by conducting thorough regression testing on each release.
- Conducted a comprehensive review of billing structures, leading to the establishment of new cost-saving measures; achieved an 85% reduction in billing costs while maintaining service quality for over 200 clients.

Projects

LAVA Application Testing (In Aequalis Software Solutions Pvt. Ltd)
Testing Types: Functional Testing, Regression Testing, Smoke Testing,
                   Cross-Environment Testing
Key Contributions:

- Bug Discovery and Reporting: Identified and reported five critical issues and one major bug, significantly enhancing the stability and performance of the application.
- Angular Regression Testing: Conducted regression testing for Angular 15-17 updates to ensure flawless implementation of new features.
- Feature Validation: Performed thorough functional testing to ensure all application functionalities met the defined requirements, contributing to an improved user experience.

Learning Management System (LMS) (In DevsIndia Private Limited)
Testing Types: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Cross-Browser Testing, Mobile Testing
Key Contributions:

- Verified learning content accuracy, boosting user engagement.
- Tested responsive designs across devices, reducing complaints by 30%.

Other Projects are
- Ultra Scholar Portal
- My Portfolio
- Library Control System
- Password Generator
- ABR Fitness
- Stock Price Prediction
